

Brighter Tomorrows Fund

In our 170th year, as OzChild reflects on its history of supporting children in need, we also look forward to continuing this critical work in the years to come.

The statement “May the children of today lead us to a brighter tomorrow” underpins OzChild’s work delivering programs and services that the evidence says works, and enabling children and young people to thrive in safe and nurturing homes.

Can you join us and help contribute to a brighter tomorrow for vulnerable children and young people?

Tackling today’s challenges, and *planning* for tomorrow’s

To mark how far we’ve come since 1851, and to help forge our path ahead, in this anniversary year OzChild is establishing the **Brighter Tomorrows Fund**.

The Brighter Tomorrows Fund is designed to tackle today’s challenges and plan for tomorrow’s by:

- 1. Immediate relief**
Offering grants to children and young people in our care with practical support not otherwise funded, while simultaneously enhancing the efficacy of our current programs.
- 2. Innovation, research and development (R&D)**
Providing funds to stimulate thinking, research evidence-based models and develop and refine new and better approaches to Australia’s child welfare challenges.

Brighter Tomorrows *Partners*

Fundraising throughout OzChild’s 170th year will be directed to the Brighter Tomorrows Fund, building on a generous seed donation bequeathed to the Fund by a long-term OzChild advocate and donor.

Further contributions to the Fund are actively encouraged. Your support can assist OzChild to not only make a difference now but help develop approaches that will benefit young lives of those in years to come, creating a legacy of hope and opportunity.

Contributors will be recognised as Brighter Tomorrows partners, acknowledged advocates for vulnerable children and young people. Brighter Tomorrows partners will receive annual reporting on the activities and outcomes derived from the Fund, including case studies of individual impact.

The ratio between immediate relief grants and innovation and R&D expenditure from the Fund will be approximately 20:80, with grants awarded via a formal application process, and innovation and R&D decisions reviewed by the OzChild Board.
